# Case Study

We have used Talented Teacher Jobs twice now, firstly to help publicise our Open Day and more recently in our search for a new Deputy Head (pastoral). Our Open day was extremely well attended and the search for a Deputy attracted a very good field of 42 candidates.

The online marketing has allowed us to target our audience on a range of social media and digital platforms with great results. We have been able to track and measure the amount of clicks and shares to our adverts that proved how effective the campaigns had been. Talented Teacher Jobs have been professional, effective and enjoyable to work with.
